

Name – Dion George

Roll No – 19

TE Comps

## Experiment 8

### Deployment Diagram

**Aim:** To model the hardware topology of a system.

**Tool used :** Dia

**Procedure:**

**Step 1 :** Identification of control parameters like

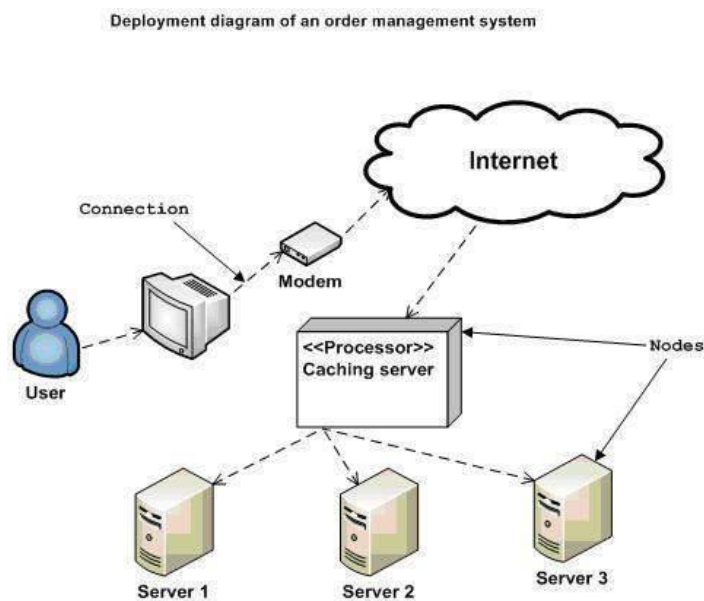

- Performance
- Scalability
- Maintainability
- Portability

**Step 2 :**

Before drawing a deployment diagram, the following artifacts should be identified –

- Nodes
- Relationships among nodes

**Example :**

**Deployment Diagram:**
